

The Missouri Manufacturing Extension Partnership Helps Missouri Businesses Succeed

The Missouri Manufacturing Extension Partnership (MMEP), operated by Missouri Enterprise, is an organization comprised of experienced manufacturing and business management professionals, which delivers hands-on business and technical assistance directly to our state's small- and medium-size manufacturing companies.

The organization's staff provides helps Missouri companies succeed by providing assistance in developing new products, finding new markets and new customers, increasing productivity, controlling costs and meeting global competition.

It provides small- and medium-size manufacturers with access to new technologies, training, and most importantly, hands-on implementation assistance, in three broad areas: Productivity Improvement, ISO/Quality Management Systems and innovative Growth Strategies. Several hundred clients each year realize significant increases in customer satisfaction, sales, quality and profitability along with material and labor savings from Missouri Enterprise assistance.

Missouri Enterprise is driving a Next Generation Manufacturing vision to advance Missouri manufacturing competitiveness and help prepare Missouri firms for a 21st century global economy. This vision includes advancing small- and medium-size manufacturers' performance in innovation, efficiency, sustainability, talent management, supply chain development and global engagement.

The MMEP is part of the U.S. Commerce Department National Institute of Standards and Technology nation-wide Manufacturing Extension Partnership network and also receives support from the Missouri Department of Economic Development.
